

## Steps to Nominate:

The nominee must be a current member of ICTM. If you think someone deserves the award and that person is not a member yet, make sure the person becomes a member. You may nominate a colleague or yourself. Nominees are limited to one award application per year.

1. Complete a Nomination Packet as follows:
  - a. Fill out the **Application** on the following pages.
  - b. Submit at least three (and up to six) **Letters of Support**. These letters should establish how the nominee meets the criteria for the specific award with special attention to his or her qualifications and contributions to the improvement of mathematics education in Illinois. Specific examples should be given whenever possible. The letters of support can be written by educators, parents, students or anyone else familiar with the person's special contributions, but please include the **names and typed email addresses** of every person who is writing a letter of support.
2. Collect digital copies of the entire Nomination Packet (including this Application and the Letters of Support) and submit before midnight on March 31 in one of three methods.
  - a. **Preferred Method:** Collect all of the digital files and upload to the ICTM web page using the Award Nomination Submission Form found at: <http://www.ictm.org/ictm-awards>.
  - b. Collect all of the digital files and email directly to the Awards Chair, John Benson, at: [j-benson2@comcast.net](mailto:j-benson2@comcast.net)
  - c. If neither of these is possible, mail the hard copy completed packet to:  
John Benson  
715 South Boulevard  
Evanston, IL 60202-2907

I will reply shortly after I receive the documents so you will know that the application is complete. If you do not hear from me within 2-3 days of when you estimate I have the documents, please contact me because I probably did not receive them.

- John Benson  
ICTM Awards Chair
